

Be a Savvy Senior

Criminals prey on older Americans and we must work together to prevent exploitation and victimization of our senior citizens.

The attorney general has pledged the full support of his office for TRIAD, a successful crime fighting partnership between law enforcement, seniors, and community organizations. We have fought for new laws that crack down on identity thieves, and we are informing seniors every day about the latest frauds and scams so they can protect themselves.

Please post this card near your phone so you will know where to get help when you need it.

Together, we can make a difference and keep our seniors safe!

Attorney General Mark R. Herring
